

RESPOND TO DEMAND FOR INFORMATION SECURITY SERVICES

EXTEND
RESOURCES

Support for MSPs & Managed IT

Your clients are asking for help creating and managing their information security programs.

Yet many MSPs and managed IT services just like yours struggle with the same challenges their clients face: accessing a limited talent pool and creating in-house expertise needed to successfully maintain a robust security posture.

You would like to to expand your services lineup to serve your clients, but you may not be sure how to:

- Find available information security talent
- Gain expertise with standards and frameworks
- Implement effective programs for your clients
- Prepare for audits and certifications
- Deploy software to support the security management process
- Identify internal and third-party risk

FLEXIBLE SUPPORT SERVICES DESIGNED FOR YOUR BUSINESS

EXTEND Resources provides cost-effective talent and expertise to supplement your existing team, serve as your complete outsourced information security compliance services provider, or deliver a blend of services based on your unique business goals.

EXTEND HELPS YOU GROW.

We enable you to create a valuable security services offering with the talent and tools to back it up. Leverage our experienced information security team to help your clients create their privacy and security roadmap, implement a security plan that aligns with their business goals, and monitor the program to mitigate future risks. As your infosec partner, we respect your client relationships.

Security Services Strategy

EXTEND can help you evaluate market opportunities and design an information security practice that meets your business goals and those of your clients.

Talent & Resources

EXTEND brings virtual CISOs, certified infosec analysts, a skilled support team, and educational resources to help you establish and manage effective security programs.

Risk Insights & Mitigation

Beyond understanding assets and assessing risk, EXTEND creates and implements a sophisticated roadmap to deploy controls and mitigate risk.

Program Management Tools

EXTEND uses state-of-the-art tools and software applications to create, manage, analyze, and monitor holistic information security programs.

Compliance & Certification

From ISO and NIST to CMMC and HIPAA, we are knowledgeable in managing recognized frameworks and standards + regulatory and business requirements.

Sales Enablement

EXTEND supports your team with lead generation training, co-marketing assets and programs, demo training, and joint discovery calls with qualified prospects.

WHAT MAKES EXTEND RESOURCES DIFFERENT?

In addition to being ISO 27001 certified for information security as a company, we use a full-featured compliance management platform which is also ISO 27001 certified. We offer a unique blend of knowledge and experience:

- Proven success in managing holistic information security programs and certifications
- Expertise in developing tools & software to efficiently manage security & privacy compliance
- A comprehensive, business-minded approach to privacy and security
- Programs and policies tailored to risk appetite & business needs/objectives
- Insights that help answer risk questions from stakeholders across the organization
- Measurable, sharable security and privacy performance indicators
- Flexible pricing models for outsourced services

Ready to support your clients while growing your business with an in-demand service?
